## Welcome to MANI: About MANI

The goal of the MGS Data Project is to make the data more broadly accessible to our members in a form that is easier to search. Eventually MGS Members will have web access to the indexes similar to what other provincial genealogical societies already have.

Because our indexes are so much an integral part of our research, they may be taken for granted. They seem so extensive and so easily produced and reproduced. However these important resources could be lost due to fire or due to a digital storage device failure. What is needed is a preservation scheme that maintains this unique set of Manitoba information.

## If you are not a member: “Try It” results

You can search a name on the home page and receive a count of the number of records in MANI that matches your search.

**Welcome to the MANI**  
A project of the [Manitoba Genealogical Society](#)

The Manitoba Genealogical Society Inc. (MGS) is a non-profit organization formed in 1976 and incorporated in 1982.  
MANI will allow you to search the indexes of the MGS. You will be able to:

- Locate individuals that match your search criteria
- Discover the resource that was indexed and information on how to access further information
- In a later phase you will be able to purchase copies of the page or the complete MGS publication where the information exists

The MANI database is growing and will have over one and a quarter million references indexed.

**Free Search of MANI Records:**

Figure 1: Home page

If you are not a member or you are a member who has not signed in, you will receive only the number of records that MGS has. You will not be able to see the actual record information.

## Search results

There are **38** results. [Register](#) or [Log In](#) to see them!  
You can also [go back](#) to the Search page.

Figure 2: Guest search results

From the Member page, you can **Register** for an account if you do not have one. It may take up to 48 hours to activate the account. You will get an email at the address you entered once the account is verified and activated.

## How to register for an account

From the MANI home page <http://mani.mbgenealogy.com>, click on the “Register” link at the top right corner of the banner.

2. Click “Login” to continue.
3. If you have forgotten your password, click on the “Forgot Password” link. This will bring you to a process where you will be able to reset your password.

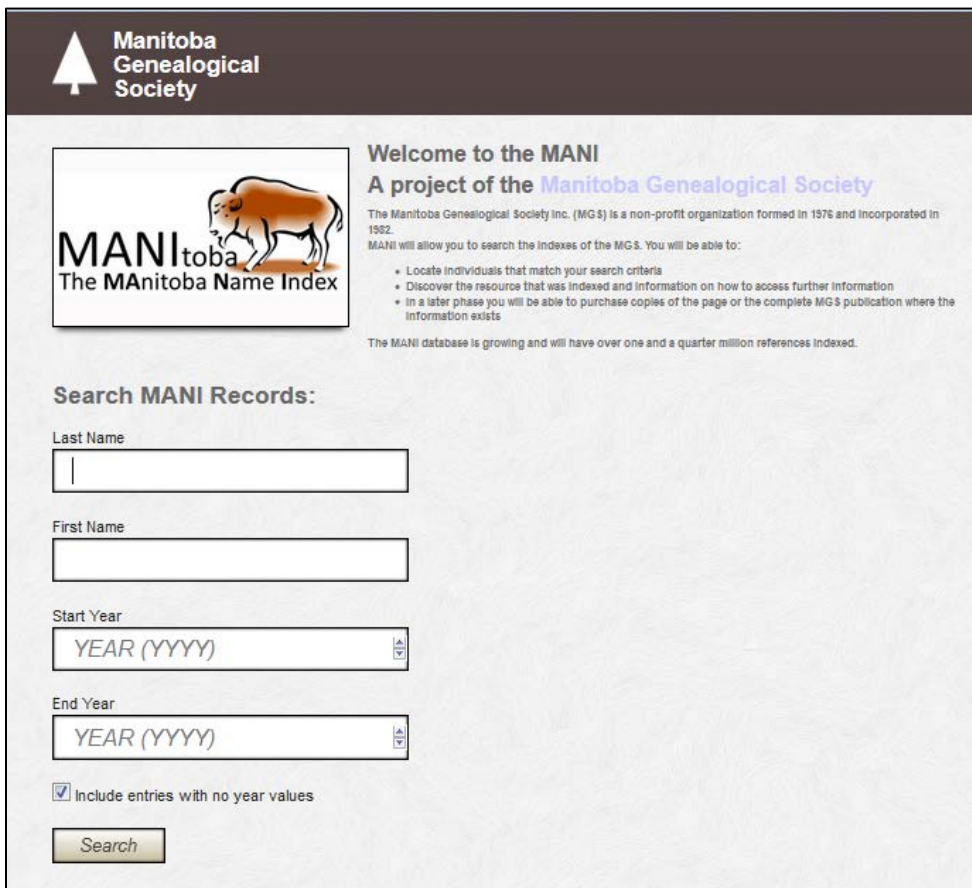

## How to search for information

### Entering key words

You can conduct a search by entering information into just one of the search fields. You must enter in at least one of the Last Name or First Name fields.

If you want to narrow down the time period to search from, enter a Start Year and an End Year. You will need to remove the check in the box “Include entries with no year values.”

Keeping the box checked for “Include entries with no year values” will give you more results since many records do not include any dates.

☒ Include entries with no year values

**Figure 6: Search screen**

1. Enter the following name information by clicking with the left mouse button in the field:
  - Last Name
  - First Name

Note: You must enter a name in at least one of Last Name or First Name fields.

2. If you have the information available, enter the following dates by clicking the left mouse button in the field:

Start Year – year of birth

End Year – year of death

Note: Include only the year. For example, if the date of death is April 1, 1990, then enter only 1990.

3. If you wish to include entries with no year values, click on the box to the left of “Include entries with no year values”.
4. Click “Search” to continue.

## What are some rules for entering key words?

There are a few rules about how to enter key words.

### **DO NOT use**

- Quotes: “ ”
- Slashes: / or \
- Periods
- Titles: Sr., Jr., Dr., etc.

### **DO use**

- Hyphens in hyphenated last names. Try both with and without hyphens.
- Spaces in between names for double last names.  
E.g., Enter “VAN ROOYEN” for the double surname “VAN ROOYEN”
- Parentheses: (and) for nicknames or maiden names  
E.g., Enter Mary (Ellen) if Mary was also known as Ellen.
- Multiple versions of the name if the person has middle names or nicknames

E.g., If the person is Susan Laura Smith, try all these versions:

Susan Smith

Laura Smith

Susan (Laura) Smith

Laura (Susan) Smith

**MANI error reporting system:** You can report problems or request features to be added to MANI. See page 14.

## How to use the results of your search

### “Member” results

If you are a member, the results of the query search will list all of the records in a table. The table has seven columns.

LastName	FirstName	Birth	Death	EventYear	TypeCode	SingleRecord
LastName	FirstName	Birth	Death	EventYear	TypeCode	
McBean	Bruce	null	null	1901	c	<a href="#">Link</a>
McBean	Mary	null	null	1901	c	<a href="#">Link</a>
McBean	Geo.	null	null	1901	c	<a href="#">Link</a>
MCBEAN	William (Wm) John	null	1982	null	o	<a href="#">Link</a>
McBEAN	Margaret (Mrs ROSS)	0	1891	null	ct	<a href="#">Link</a>

Figure 7: Search results

### Decide what you want to see

You may organize the information by using

- “Filter By” feature
- “Number of Records per Page” feature
- Bottom, left hand page selection

## “Filter By” feature

This feature allows you to narrow down the selection of results. You can enter text into the box at the top of a column to specify which part of the search results you want to see. Only those items with a match will be shown. You can also enter text or numerals into the “Search all columns” field.

E.g. As shown in Figure 8, if you enter “Bruce” into the box at the top of the FirstName column:

- Only records containing Bruce as the first name will be displayed. If there are first names such as Bruce (William) and Bruce James, they will also appear since they both have Bruce within them.
- Records not containing Bruce will not be displayed.

**Event Legend**

b = Birth	c = Census	ch = Christening/Baptism	cr = Church Record	ct = Cemetery Transcription
d = Death	fc = Funeral Card	fh = Family History	lh = Local History	m = Marriage
n = Newspaper Article	o = Obituary	pi = Publication Index	vs = Vital Statistics	

**Search Results**

The TypeCode column in Figure 8 is explained in the Event Legend at the top of the page i.e. c is a census index.

### “Number of Records per page” feature

The “Number of Records per page” field allows you to control the number of records that are displayed on your screen. There are four choices: 10, 25, 50, or 100.

Figure 9: Records per page

The arrow that points downward ▼ shown in Figure 9, indicates that a drop-down menu is available. When you click on it, a list of choices will appear (or “drop down”).

1. Click on the arrow that points downward ▼.
2. A drop down list appears.
3. Place the cursor over your preferred number of records per page.
4. The area turns blue.
5. Click the left mouse button.
6. The number of records per page changes accordingly.

### Bottom right-hand page selection feature

This feature allows you to move back and forth between pages of your results.

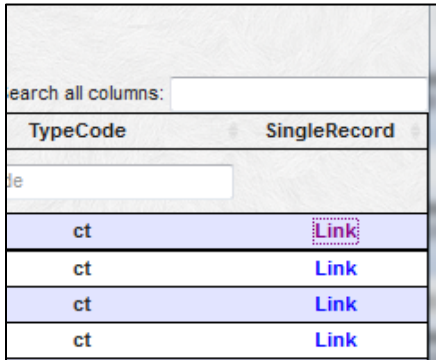

Figure 10: Pages of search results

In Figure 10, the numbers in the bottom right-hand corner indicate two things:

- The number that appears in the highlighted box indicates the page you are on.
- Click on the other numbered boxes to move to other pages.
  - Clicking on “First” will bring you to the first page of results.
  - Clicking on “Last” will bring you to the last page of results.
  - Clicking on “Next” will reveal more pages.

## Get more information on a result

Once you have found results you are interested in, you can click on the [link](#) (see Figure 11) for the record entry to bring up further information on the source.

The screenshot shows a web interface with a search bar at the top labeled 'Search all columns:'. Below it is a table with two columns: 'TypeCode' and 'SingleRecord'. The 'TypeCode' column contains the value 'ct' in four rows. The 'SingleRecord' column contains a 'Link' button (represented by a purple icon with the word 'Link') in the first row, and the text 'Link' in the subsequent three rows. The first row is highlighted in blue.

TypeCode	SingleRecord
ct	<a href="#">Link</a>

ct	Link

Figure 11: Links

Figure 12 shows examples of two links:

- Cemetery = PDF of the Cemetery created by MGS. If there is no PDF file, the MANI system defaults back to what is listed in the database record for that cemetery.
- Cem[Link](#) = Link to Manitoba Historical Society page for that Cemetery. This includes a map of the location as well as additional information.

## Number of Results Returned

As seen in Figure 13, the number of records returned by the search is displayed on the bottom left of the page.

## Names in parentheses

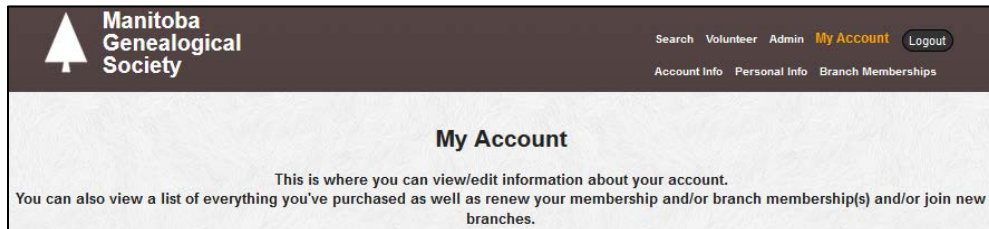

If a first name entry also has a name in parenthesis then the individual had an alternate first name. Examples are:

- Title – (Dr), (Rev), etc
- Nickname – in upper and lowercase (Bill)
- Alternate Last Name – in ALL CAPS
  - (nee WILSON)) known maiden name
  - (Mrs. WILSON) known married name
  - (WILSON) alternate last name, could be married or maiden or could be a name change.

**Error Report**

Please submit the form with as much information as you can. We'll try and fix the problem as fast as we can. Only the name and description is required.

Name:

Email:

\*We'll be using your email to contact you if we have further questions about the error. Feel free to leave it blank if you don't wish to be contacted.

Title:

Description of how the error occurred:

**Figure 17: Error report screen**

1. Enter your name [mandatory field].
2. Enter your email address. This will be used if further clarification is needed or information needs to be sent to you.
3. Describe the steps that you took leading up to the error you received so that someone else can follow the exact process you used and get the same results. E.g. "As a member, I logged on and entered McBean into the last name field and clicked on the Search. I had the include entries with no year values checked. In the search results, I clicked on the link for William John McBEAN who died in 1982 which is an obituary entry. Nothing happened!"
