

Library Report for the Council Meeting Apr 20, 2013.

Not much new to report since last meeting.

Concern of copyright for projects done for MGS by members. This will be discussed under New Business.

We have been asked to sell a copy of our 1870 census index. Kathy and I discussed it and suggested a price of \$25. (I should be able to put the complete index on 1 CDR – would be about 400 printed pages). We now have a concern – who owns those indexes? Should be have a release form from donors? If a member does work who owns the rights to the finished product?

Concern of monetary donations to the library. Can someone please let me know as soon as these donations come in? To date I know of two but have not received notification of them. I would like to be able to put those funds into purchasing new local history books before the end of the present fiscal year.

A meeting was held concerning what the cemetery committee and the library committee are doing, so no duplication of work, and that KOHA has the correct information.

Painting the Kitchen. I see the date for the job includes Sunday – just so you know we are open but can work with the painters. No problem.

KOHA on the website: We had dreams of adding the collections of the branches onto our KOHA site. This didn't happen – so need to change homepage.

MGS Library had a display at the Brandon Seminar last weekend.

We are in the process of doing a complete inventory of the library.
