

South West Branch MGS Report

April 15, 2013

The South West Branch continues to meet monthly with 13 to 17 members (and sometimes guests) present. Our Program Committee has done a good job of arranging for interesting presentations which members find valuable.

On April 13, we held our workshop. We were pleased to have 55 participants. Feedback from those in attendance has been very positive: the presenters were very well received and many good connections were made. We have already had a few new members join the Branch as a result of the Workshop! We also held our 24th Annual Heritage Dinner the same evening. It was well attended and enjoyed by everyone present. Eleanor Burch was awarded the Ruth Tester Award – a very deserving recipient!
